PROFESSIONAL SUMMARY

Driven MERN Stack Developer with a strong background in MongoDB, Express.js, React.js, and Node.js. Experienced in developing responsive web applications, optimizing performance, and ensuring cross-browser compatibility. Skilled in designing and implementing RESTful APIs for efficient data exchange and focused on creating reliable, scalable software solutions.

WORK EXPERIENCE

MERN STACK DEVELOPER INTERN,   Dec 2023– Jun 2024

LUMINAR TECHNOLAB KAKKANAD

PROJECTS

BOOK MY SEATS WEBSITE

- Developed a full-stack web application for online movie ticket booking using React, Node.js, Express.js, and MongoDB, featuring secure user authentication and interactive seat selection.
- Created an admin panel for managing movies, showtimes, and bookings, and integrated Razorpay for seamless payment processing.

YUMMI - RESTAURANT FOOD BOOKING WEBSITE

- Created a webpage for online food ordering with secure payment integration using Razorpay.
- Implemented user authentication and an admin dashboard for managing menus and orders.
- Utilized React, Node.js, Express.js, and MongoDB for full-stack development.

YOUTUBE MEDIA PLAYER WEBSITE

- Built a media player using React and JSON Server, featuring YouTube video embedding via URLs.
- Implemented video categorization, drag-and-drop functionality for rearranging and deleting videos, and smooth user interactions.
